TREATMENT GUIDE

☐ PRP (Platelet Rich Plasma) (\$1100)

Uses a concentrated portion of your own plasma to support natural healing for joints and tendons.

☐ A2M (Alpha 2 Macroglobulin) (\$2500)

Combines PRP with an additional protein from your plasma that blocks cartilage breakdown, slowing osteoarthritis while preserving your joint.

☐ Hyaluronic Acid (HA) Gel Injection (\$1350)

Preserves and cushions the joint, slowing osteoarthritis by supplementing lubrication.

☐ EMTT (Extracorporeal Magnetotransduction Therapy)

High-energy magnetic pulses that reduce inflammation and prime the tissue to accelerate recovery and healing.

☐ Focused Shockwave Therapy

Targeted sound waves that stimulate your body's own healing properties to repair injured and aging tissue.

☐ Massage Therapy

Hands-on treatment to relax muscles, improve circulation, reduce tension, and support recovery.
